Clinician Aid A
Patient Request for Medical Assistance In Dying

Medical Assistance in Dying means: (a) the administering by a medical practitioner or nurse practitioner of a substance to a person, at their request, that causes their death; or (b) the prescribing or providing by a medical practitioner or nurse practitioner of a substance to a person, at their request, so that they may self-administer the substance and in doing so cause their own death.

Authorized third person is a person who is at least 18 years of age and who understands what it means to request medical assistance in dying and who does not know or believe that they are a beneficiary under the will of the person making the request, or a recipient, in any other way, of a financial or other material benefit resulting from that person's death may sign and date the request in the presence and on behalf of the person requesting medical assistance in dying.

An independent witness is any person who is at least 18 years of age and who understands the nature of the request for medical assistance in dying who (a) does not know or believe that they are a beneficiary under the will of the person making the request, or a recipient, in any other way, of a financial or other material benefit resulting from that person's death; (b) is not an owner or operator of any health care facility at which the person making the request is being treated or any facility in which that person resides. An independent witness may include a person who is paid to provide health care services or personal care to the person requesting medical assistance in dying. A medical assistance in dying provider, assessor or where applicable, the consulting practitioner with expertise in the condition causing the person's suffering is not permitted to act as a witness.

A person is considered to have a **grievous and irremediable** medical condition where:

- they have a serious and incurable illness, disease or disability; and,
- they are in an advanced state of irreversible decline in capability; and,
- they are experiencing enduring physical or psychological suffering, due to the illness, disease, disability or state of decline, that is intolerable to the person and cannot be relieved in a manner that they consider acceptable;

Note: Persons whose sole underlying medical condition is a mental illness, and who otherwise meet all eligibility criteria, are not currently eligible for MAID. The term mental illness does not include neurocognitive or neurodevelopmental disorders, or other conditions that may affect cognitive abilities.

The use of this aid is voluntary. It is being provided to assist you in making a written request for medical assistance in dying that complies with the legal requirements.

Once you complete this request, you should provide it to your doctor or nurse practitioner. The completed aid may be included in your medical records and may be used by your doctor or nurse practitioner to provide health care to you.
